TOTO

TALKING ABOUT POLITICS,  
WHAT ARE WE GOING TO EAT ?

*During the week, we shaped table barbecues out of clay, a mix between japanese small barbecues and malagasy «fatapera». We shaped candleholders and plates. We used an eastern european technique from where Beuys crashed down with his plane and became an artist.*

**FIRE !  
FIRE !  
FIRE !  
FIRE !**

*We had many discussions by the fire.  
Some were sad.  
Some were warm.  
We're living with fire  
everyday. Its violence.  
Its power. We're all  
fascinated like looking  
at stars. Megafire,  
Riotfire, Energyfire  
and Gatheringfire were  
four themes that  
inspired this humble  
publi- cation.*

*Enjoy it !*

## EUCALYPTUS FIRES

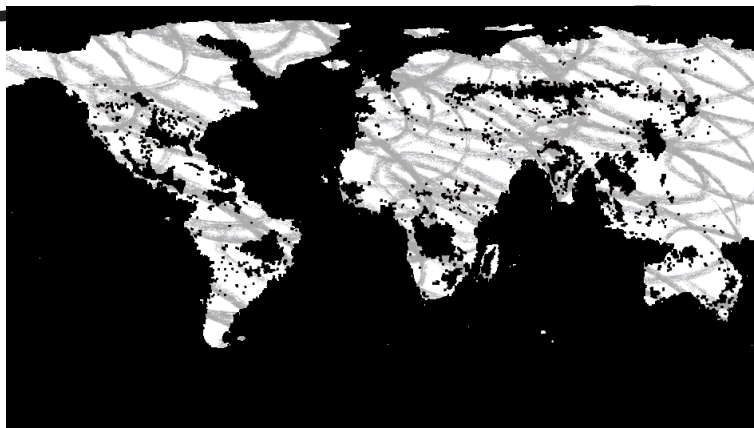

i was with  
my mum and my  
father in law  
during summer.  
then we started  
to smell fire. they  
were not worried. but i was. then i  
used an app on my phone which localised  
the fires. i saw spots getting bigger and  
bigger and suddently we had to leave the  
place. it happens because 60% of por-  
tugal's forests had become eucalyptus  
because of paper industries. also, they  
restrain protected areas that would stop  
human actions and the cause of fires

## NASA FIRE MAP

ALL BLACK DOTS ARE  
THE ACTUAL MEGAFIRES  
SHOWING OUR PLANET  
IS ACTUALLY BURNING

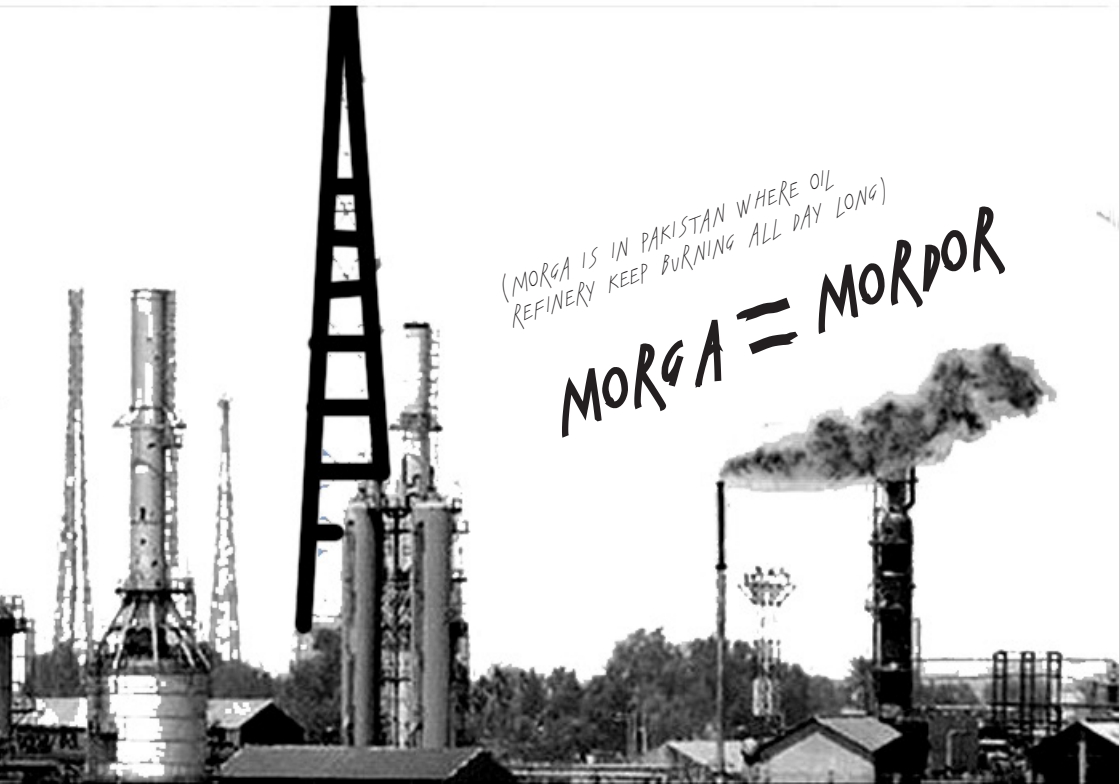

# SICILIAN MAFIA

*the mafia in sicily is burning forests to save spaces for investing in green energy. therefore they create megafires putting in danger the entire ecosystem of the island. this paradox should warn us about how money and private interests can be contradictory.*

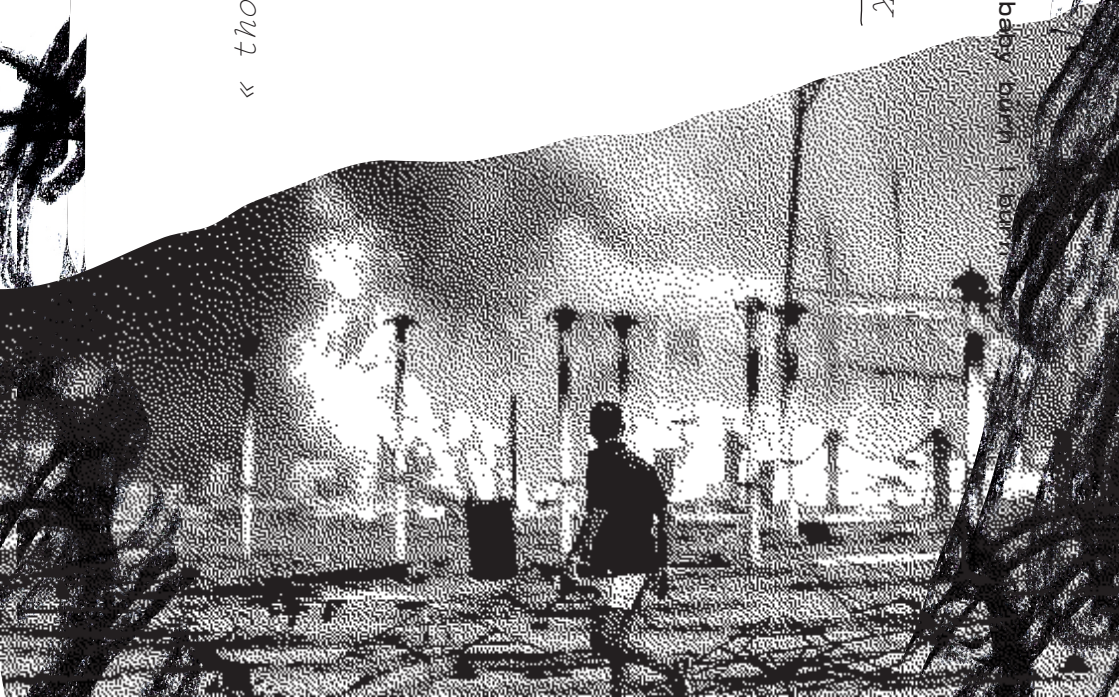

(MORGA IS IN PAKISTAN WHERE OIL  
REFINERY KEEP BURNING ALL DAY LONG)

**MORGA = MORDOR**

» those megafires are such big and strong images you can't stay still » - Joëlle ZASK

# FROM FUTURISM MANIFESTO :

WATCH OUT !  
THESE ARE PROTO-FASCISTS

what  
was it  
Francis  
Alys wanted  
to say when  
kicking  
at a  
fired  
ball  
for 30  
minutes ? Maybe  
the absurdity of  
the presence of us  
playing with chaos ?

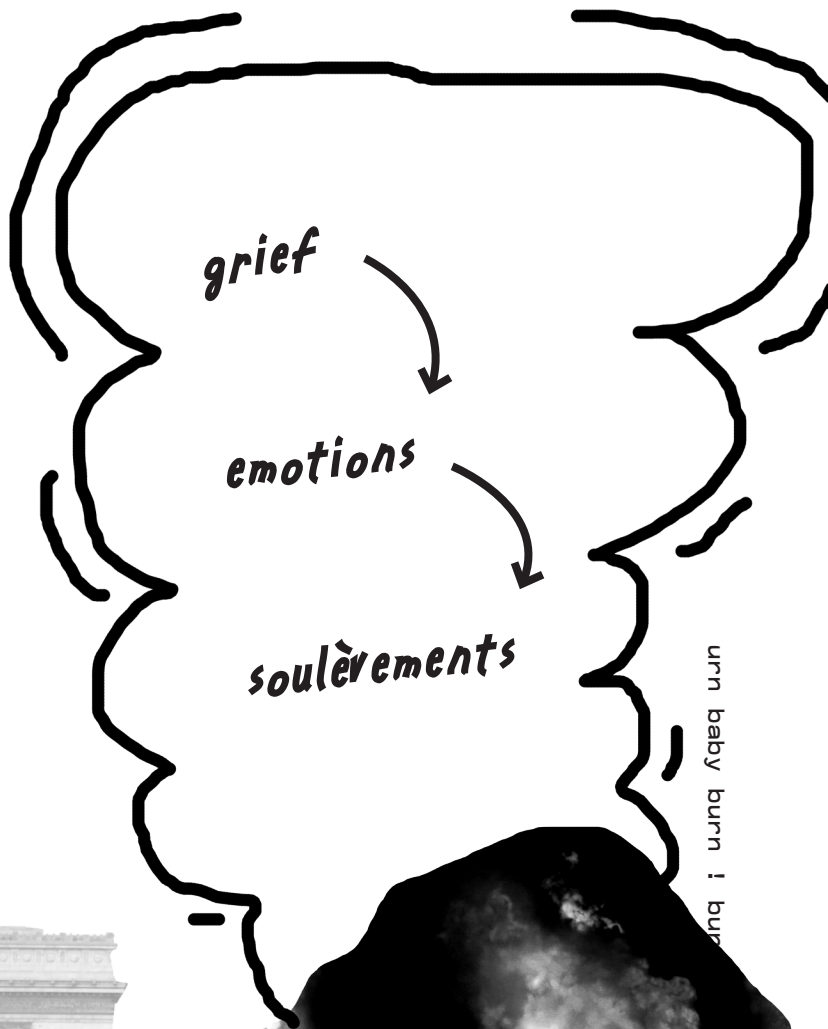

Ils nous trouveront enfin,  
par une nuit d'hiver,  
en pleine campagne, sous  
un triste hangar pianoté  
par la pluie monotone,  
accroupis près de nos  
aéroplanes trépidants,  
en train de chauffer  
nos mains sur le  
misérable feu que  
feront nos livres  
d'aujourd'hui  
flambant gaiement  
sous le vol  
étincelant de  
leurs images.

LES LARMES  
DEVIENNENT  
LE FEU

(G. DIDI-HUBERMAN)

# GATHERING---fire

« I am a degenerate  
modern semi-  
intellectual who would  
die if I did not get  
my early morning cup  
of tea and my New  
Statesman every  
Friday. Clearly I  
do not, in a sense,  
'want' to return  
to a simpler,  
h a r d e r ,  
p r o b a b l y  
agricultural  
way of life.

G. ORWELL

THAT IS A FIRE CIRCLE MADE BY THE ARTIST KAIN KARAWAHN IN 1996

IT IS CALLED «ICH PHOENIX»

# AGRICULTURE AND FIRE

- in scotland, peat cutting is related to a specific way of infusing whisky : smoked earth gives a unique taste and shows the value of producing local goods.
- in vineyards, they're making little fires under each plant to prevent freezing.
- in many places in the entire world, huge fires take place at the end of the harvesting times and gather everyone around huge fires and parties

« no problem  
with  
nuclear waste  
we send it  
to the sun »

at the  
beginning of nuclear  
power, when coming to deal with waste,  
both western and eastern cultures had this  
very clever idea to send it to burn on  
the sun. it's like flushing the toilet and  
that's what we all do now with our waste.

burn baby burn i burn b

when do we get rid of our consumer societies ?

# PAKISTAN'S ENERGY

36% of pakistan's energy is made out of renewable hydro-electric power. but all the water comes from the mountains, and sometime it fails and then it comes we have blackouts. during them, we're using secular oil lamps and bring the fire back to our homes.

## BRUNNENGEHN OVEN

FROM COLLECTIV HOTEL REGINA !

it's about turning a public fountain into a social place again. heating up the water to 39°C and inviting people in the neighborhood.

we self-built a special oven made out of inox. the pump runs with bicycle and it's been going on for 5 years.

« what objects  
would you save  
from your  
burning house ? »
